

KNOW YOUR DECKING

Choose your grade

Non-structural Downgrade

The lowest grade of timber, this will have knots, holes and splitting. This is ideal for decking on a low budget and other DIY uses.

Merch Grade

This timber is utility-grade and will have minor knots and other defects. This is suitable when some character is preferred.

Premium Grade

Premium grade features the least knots/defects and is the highest quality. This has the best finish making it suitable for all visual uses.
